

S P R I N G

Alert!

Tornadoes, floods, thunderstorm winds, hail, lightning, heat, and wildfires - spring is three months of danger that can imperil the unprepared. (National Weather Service)

REMEMBER:

- *Weather conditions can change with little to no warning.*
- *Be aware of weather hazards when working outside.*
- *Seek shelter in the event of severe weather.*
- *Be careful when working on or around equipment and elevated structures during inclement weather.*
