

Division of Mined Land Reclamation  
**Vibration Observations**

**Instructions:**

Whenever you believe that a **vibration from a coal mining operation** has occurred, please provide the information described below in the above chart (for each occurrence).

<b>Date</b>	enter the date the vibration was felt.
<b>Time</b>	indicate the time of the vibration (indicate a.m. or p.m.)
<b>Vibration</b>	indicate the magnitude of the vibration based on a <b>scale of 1 to 5</b> (with 1 being slightly noticeable to 5 extremely unpleasant).
<b>Observer</b>	indicate the name of the person who felt the vibration.
<b>Location</b>	indicate where the person was when the vibration occurred (e.g., kitchen, garage, basement, outside the dwelling/building, etc.).
<b>Weather</b>	Indicate the weather conditions at the time of the vibration (i.e., overcast, fair, windy, rainy).
<b>Comments</b>	provide any comments that you have concerning the vibration.
