

OBJECTIVE

This year's seminar will focus on several MSHA related safety issues confronting the aggregates industry today. All levels of company management are encouraged to attend the seminars to learn insights that will make certain facility operations safer. Attendees will be introduced to the information and tools necessary to protect their personnel, avoid penalty assessments and ensure continued operation of their plants.

WHO SHOULD ATTEND

Anyone involved with the safety and welfare of those working for or with them should attend these sessions. This year's topics cover a wide range of safety related matters that impact everyone in the aggregates industry. This includes senior safety managers, front-line supervisors, hourly workers and independent contractors.

Optional: Portions of the Safety Seminar program can count toward MSHA Annual Refresher Part 46 training!

DOOR PRIZES

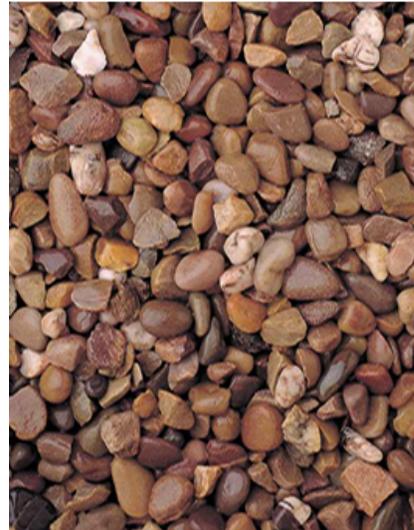

Thanks to the generosity of participating companies, several door prizes will be given away during both seminars.

3315 Ordway Drive
Roanoke, VA 24017*

TOPICS AND ISSUES

2013 VTCA Aggregate Safety Seminars
Fredericksburg: December 3, 2013 Roanoke: December 4, 2013

This year's seminar will focus on the new Global Harmonization System that has been implemented by OSHA and is likely coming from MSHA soon. We will also be discussing the value of training vs. education. These, and other topics that will be discussed, are of critical importance to both mining operators as well as contractors that perform work on MSHA and/or DMME regulated sites. The information you receive will be beneficial in protecting your personnel, avoiding penalty assessments and ensuring the continued and safe running of your operations.

Additionally, there will be an afternoon round table discussion hosted by MSHA, DMM and guest speakers designed to discuss and answer questions related to regulatory and inspection matters. Sam Pierce, Acting Southeastern District Manager and Marvin Lichtenfels, Acting Director of Metal/Nonmetal, are tentatively scheduled to attend the seminar and lead the panel discussion. This is a GREAT opportunity to engage the head MSHA personnel on your terms!

Our keynote speakers this year are Sam Scribe and Ellen Sanders. Sam is President of Catamount Consulting of Pennsylvania. Sam has been an MSHA/OSHA instructor & motivational speaker for over 20 years. Sam promotes and motivates safe behavior through a unique style of training, interacting with the group and making safety personal. Sam's mission is not just to instruct people, but to motivate them to make safety a way of life.

Ellen is President of E. S. Sanders Corp. and a Certified Environmental Trainer—NETA, specializing in safety and environmental compliance. She has over 20 years experience in Human Resources, Safety and Environmental matters and has been consulting since 1999. Ellen has an MBA in Chemistry and Biology and is currently pursuing her PhD in Organizational Management/Human Resources.

Other Topics Include:

MSHA Update & Accident Trends

Sam Pierce, Acting Southeastern District Manager, MSHA

DMM Updates

Dave Benner, Director, Division of Mineral Mining

Don't Wait - Register NOW!
Early registration ends November 15, 2013
